
500W Solar Power Bank

What is a solar power bank?

A solar power bank is a portable device that can charge small appliances using solar energy. Jackery portable power banks are a popular choice when you're away from electricity, whether for an office trip or a family camping adventure.

How many watts can explorer 500 charge?

A: The Explorer 500 can charge/power devices that operate at less than 500 watts and the total wattage of all connected devices should also be under 500 watts as well. If the power requirement exceeds this limit, the Explorer 500 will automatically shut off. Please check your device's specifications before making a purchase.

How does the explorer 500 battery management system work?

Its Battery Management System governs each individual cell, improving the battery life cycle while being pass-through charged. **DESIGNED FOR PORTABILITY:** Same size as a basketball, this Explorer 500 is easy to carry with its solid handle, making it a compact and reliable choice for scenarios of camping, road-trip, RV, and home backup.
