# Budget Proposal for 40-foot Folding Containers for Ships

What is a seafold 40' container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

Will the seafold 40 reduce the cost of repositioning containers?

With over 20 percent of all ISO containers returning to their port of origin empty, the SeaFold 40' has the potential to cut the cost of repositioning containers by 56 percent, storage space by 80 percent, and carbon emissions by up to 70 percent.

How much does shipping a 20ft container cost?

Shipping a 20ft container ranges from \$2,800 to \$15,600, and a 40ft container from \$1,865 to \$23,415, depending on the route. Partial container shipping (LCL) is a cost-effective option for smaller moves, averaging around \$1,600. Main cost factors include distance, volume, delivery method, and optional services like insurance, customs, or packing.

How much does it cost to ship a container overseas?

The total cost to ship a container overseas depends on several factors: For smaller shipments, partial container shipping (LCL) is a cheaper alternative. Here's a breakdown of the average overseas shipping costs for both 20ft and 40ft containers by region: Shipping a 20 ft container can range from \$2,800 to \$15,600 depending on destination.
