
Cape Town New Energy Skytrain Station

Could a new Sky Train be built in Cape Town?

Gareth Ramsay, a South African development engineer, is proposing an ambitious plan to build a new "sky train" in Cape Town. The idea was partially inspired by the famous incomplete Foreshore Freeway Bridge, which has been an established part of the city's skyline for nearly half a century.

Will Cape Town stifle Ramsay's Sky Train proposal?

The City of Cape Town, however, has stifled Ramsay's sky train proposal. Rob Quintas, the city's mayoral committee member for urban mobility, confirmed that the elevated railway idea is not under consideration.

Could a "sky train" be introduced to Cape Town?

Gareth Ramsay, a South African development engineer, is the man leading a proposal to introduce a "sky train" system to Cape Town. He argues this would ease traffic congestion, modernise public transport, and better use underutilised infrastructure.

Will a "sky train" connect Cape Town to the Atlantic seaboard?
