
Industrial switchgear factory in Los-Angeles

What is industrial switchgear?

Industrial switchgear is a mechanism used to safeguard electrical connections at industrial and residential areas. It has been in use since the discovery of electricity and is popular due to its various features and functions.

Where are switchgears made?

Our range of switchgear is born and bred in Australia. We began our journey over twenty years ago and are proud to have supported many businesses across Australia, New Zealand and the Pacific during this time. Our local staff are the backbone of our organisation.

Why do you need a switchgear manufacturer?

When it comes to protecting and powering your electrical distribution systems, having the right equipment is crucial. As a leading provider of switchgear manufacturing services, we offer best-in-class components and expert solutions designed to help you optimize your supply chain and minimize downtime.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.
