
Southern Europe Containerized Generator Set Factory

What is a containerized generator?

Less Maintenance The Containerized Series generator sets are designed for harsh weather and strict acoustical standards,utilizing a standard 40" high cube container equipped with an array of innovative features,allowing the system to operate reliably even in the hottest environments - validated at ambient temperatures of up to 55 degrees Celsius.

Are CPs generator containers controlled by DSE?

Our generators are coupled with Mecc Alte,Stamford,or Leroy Somer alternators and controlled via DSE or ComAp control panels to ensure top-notch performance. Why Choose CPS Generator Containers?

Why should you buy a Cummins containerized generator set?

More Robust. More Control. More Reliability. Factory pre-integrated and customizable per site requirements,the new Cummins Containerized Series generator sets can provide significantly shortened lead time for installation,and a lower cost of ownership via a flexible design.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable,such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type,noise attenuation,and space-saving layout.
