# Tokyo Electric Power Energy Storage

Does Tokyo Gas have a battery energy storage system?

Tokyo Gas is also participating in the Japanese utility-scale battery energy storage system (BESS) market, signing a 20-year tolling offtake deal with Australian developer Eku Energy for a forthcoming 30MW/120MWh project.

Why are battery storage systems being installed in Japan?

Several megawatt-hours of residential battery storage systems, typically paired with solar PV, are being installed in Japan on a monthly basis. This is largely due to concerns about losing power at home, given the seismic activity the country is frequently subject to, as well as extreme weather events like typhoons.

Which companies aggregate home battery aggregation projects in Japan?

Home battery aggregation projects from Tokyo Electric Power Co, and Tokyo Gas, two major utility companies in the Japanese capital.

Which companies are launching a battery balancing programme in Tokyo?

Another Tokyo-headquartered utility, Tokyo Gas, also began a similar programme with residential batteries. The company markets and installs battery storage systems to households, and also has a new solutions service, branded Igniture, which controls the charging and discharging to participate in power supply-demand balancing.

Home battery storage aggregation projects have launched with participation of Tokyo Electric Power Co, and Tokyo Gas, two major utility companies in the Japanese capital. ...

As Japan's energy market continues to evolve, residential energy storage systems (ESS) are playing an increasingly vital role in grid management. Recently, utility companies ...

Tokyo Century Corporation 12/12/2025 | Press release | Distributed by Public on 12/11/2025 20:10 Tokyo Century to Invest in Self-Developed Extra-High Voltage Grid-Scale ...

Tokyo Asset Solution will develop battery storage starting with a 4.9MWh grid-scale project in Hachioji City, Tokyo, and a co-located 8.3MWh system at the 2MWAC/2.2MWDC ...

TEPCO HD and Toyota will evaluate the results of the verification project and work to develop storage battery systems with an eye toward consumer-oriented energy services ...

Contributing to Power Supply Stability and a Decarbonized Society, Aiming for Early Development of Approx. 600 MW Capacity Tokyo Century Corporation (President & ...

This standalone battery storage facility is strategically positioned within the Tokyo area to provide crucial support to one of the world's most demanding energy markets. Grid-Scale Battery Storage to Provide ...

---

Home battery storage aggregation projects have launched with participation of Tokyo Electric Power Co, and Tokyo Gas, two major utility companies in the Japanese capital. On Tuesday (3 September), power ...
