
Waterproof flat solar tiles

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Are the solar panels waterproof?

All kits come standard with the upgraded 20w solar panel for extra power! The whole system has an IP66 weather proof rating, which means that not only are the units dustproof, but highly water resistant making them perfect for outdoor rural or domestic use! Very high quality.

Do solar roof tiles have a warranty?

Glass and steel roofing tiles make up solar roof tiles. While the latter is flexible and can be installed on rooftops of any size or shape, the former is strong and offers exposure to the sun, which produces energy. In addition, while solar panels have a 20-year warranty, solar roof tiles have a 25-year warranty.

How do solar tiles work?

Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof. Photovoltaic cells in solar tiles turn sunlight into direct current (DC) energy.

Flat solar tiles perfectly combine architecture, aesthetics and photovoltaic technology, making the entire roof look beautiful and technological, and enhancing the value of ...
